## ABOUT US

IREA Porcelain is a company keen on design and targeting novelties. Aiming to be a reliable supplier combining quality and unique design. By matching the artificial approach with industrial production, started its journey to be the name of naturalism on tables. The dreams came to real in 2021 after the 20 years of production experience IREA brand; values quality, design and trends. By widening its approach in porcelain with art and science, IREA offers dishes for your tables.

## Innovative and Sustainable Design

Innovative and sustainable products produced by IREA are the combination different high quality raw materials. IREA is making each porcelain piece unique with the special nature friend glazes developed in its R&D. The special glaze combination makes each product special and unique with the natural combinations which reflect in kiln atmosphere in high temperature.

# High Mechanical Strength

The combination of best raw materials offers high quality, strong and elegant product with the unique kiln curve and hand craft applications.

## Hand Craft

Workmanship together with tools and process technologies, presents modern and organic products having aesthetic and functionality. Unique products which differences not to be considered as defect come to real free of changes from form, feeling and color. The characteristic of products Show the uniqueness of them.

## Sustainability

Products of IREA Porcelain are ecological and produced from natural, clean raw materials. We are proud to announce that we are a sustainable company. All our products are made by us from the materials coming to our factory. As a result of this we are able to control the quality and consistency of final product. This process allows us to reduce our carbon footprint. We are recycling 100% of all materials from the forming process also aiming the first frying rejects to be recycled. Also we are using the heat from our kilns in other production processes to reduce energy consumption.

## Food Safety

Products produced in IREA Porcelain match the worldwide standards for lead & cadmium.
